INTRODUCTION.

THIS Edition of "The Bibliotheca Americana" contains the whole of the Original Work published in 1849, the Supplement published in 1850, also some Two Thousand Titles of Books then published and not contained in either of these two Works, together with such Publications as have appeared since, up to the present time, making in all over 24,000 Titles.

There are, undoubtedly, many Books included in the List that might have been omitted without detriment, but as the Work is intended as a Manual of Reference for the Trade, I have inserted all that came within my search, not knowing where to make the stopping point, as the very Books my judgment might exclude would frequently be sought for; and to the Bookseller it is very satisfactory to let his customer know such a Book has been published, even if he has to give the frequently *convenient* answer, "out of print."

As a general rule I have given the original date of publication of all works relating to History, Voyages and Travels, notwithstanding many of them which are stereotyped bear the imprint of the present year.

I have made no separate Classification of Biography as heretofore, but have incorporated it in the general Alphabet, under the head of the subject treated of, and not under the Author's name.

Law Books are classed separately, and will be found at the end of the Volume.

The List of Periodicals is taken from the last Census of the United States, with some additions.

It is not my intention ever to print another edition of the present Book, but purpose continuing the work at intervals by Supplement, containing the New Publications and such Books as may change Publishers.

NEW YORK, *October*, 1852. ORVILLE A. ROORBACH.
